Mass Meeting

Wednesday Night.

Wednesday night the citizens met in mass meeting in the tabernacle to discuss the best means of bettering the health of the community and to advise some way to protect, if possible, the people from contracting contagious diseases.

Mayor Woodbury acted as chairman and called Dr. J. C. Robinson to speak to those assembled on small-pox and diphtheria and tell them the nature of the diseases and how they acted upon the system. The doctor gave an interesting talk, and showed that it was well to be careful in the matter of coming in contact with people who had been exposed or had contracted either of the diseases referred to. He also gave some very valuable instructions as to the manner of disinfecting, which, if followed out, will eliminate these scourges to a great extent.

Several questions were asked of the doctor which he answered readily enough, and barring some personal ones, they were all calculated to bring forth information bearing on the questions in hand.

The decision was reached to keep the district school closed until next Monday at least, and to allow all public gatherings to be conducted, excluding, however, all children under 14 years of age.

MARY JENSON DEAD.

Passed Away Suddenly Thursday Morning at 4 o'clock.

Thursday morning as the citizens were going to their various duties the news was imparted to them that Mrs. Mary Jenson, wife of John Jenson, had passed suddenly away at 4 o'clock. The news was received with incredulity, as it was known that the lady was well a few days before and many had met and talked with her and at that time she seemed to be in the best of health.

It is learned that she was troubled with what is supposed to be leakage of the heart, and which culminated in her death at the time stated.

She was a lady highly esteemed by all who knew her, a hard working woman and devoted to her husband and mother who are left to mourn her sad loss. Her husband will doubly miss her, as he has been an invalid for a long time, and it was always her ready and willing hand that nursed him. Her mother, too, will miss her sadly, as she was somewhat of an invalid and is quite aged, and needs the loving care, which her daughter always gave her.

The death is a sad one inasmuch as she was a young woman, and was the mainstay of her aged mother in her declining years, and the loving companion and nurse of her husband in his long illness.

The sympathy of their many friends goes out to the husband and mother in the terrible loss they have sustained.

Our Public Library.

Did it ever occur to you when you were showing some stranger about the town that one of the places he would be most interested in is the Public Library?

The librarian, a lady very interested in Cedar's progression, remarked to a representative of the paper that although we have had some of the most prominent men of the state visiting our town lately, not one of them have been taken to see our library.

If you haven't been in to see how nicely the room is fixed up, and what a fine line of books we have, it is high time you were going there. Since the sectional book cases have been added the room is better than before, and one could spend many a profitable hour there.

A travelling salesman said that he had visited a great many towns larger than Cedar, but had not found as fine a library in any of the country towns as we have here. He said that some of the towns twice the size of Cedar have no library at all.

Howard R. Driggs, who is always "boosting" for Cedar, has donated fifty volumes to the library recently. The board have ordered \$100 to be spent in works of fiction, which will be here shortly, and then Cedar will have one of the most complete libraries that any of the smaller cities of the state can boast.

John M. B. Higbee, who has been working in the Salt Lake Temple the past two months, is home again.

Miss Nell Corlett has resigned her position in the post office, and has been succeeded by Miss Carrie Neilson.

Sam Bell and Walter Lunt returned this week from California, where they had been to deliver a shipment of sheep.

Mr. and Mrs. George Berry of Kanarra were business visitors in town this week. Mrs. James Roth accompanied them home.

Bishop H. W. Lunt is touring Kane county in the interests of the Republican party. He is accompanied by Wm. R. Palmer.

H. S. Crosby of Seattle, Wash., is in town renewing old acquaintanceships. Mr. Crosby was a well known figure here some years ago.

Mr. and Mrs. J. G. Pace are visiting in Pinto. They went over to be in attendance at the reception given Claude Knell, who is just returning from a mission.

Diphtheria Question.

The Record made effort to secure a detailed report of the diphtheria controversy and was told by Dr. Robt. Thorley, who made a trip to Salt Lake to have the question settled by the State Medical Board, that he would be prepared to report in full above his signature next week. Quarantine Physician J. C. Robinson will also make a report, and our readers are asked to wait patiently till next issue when matters will be presented to them in complete form.

In the meantime there is no necessity for excitement.

Mr. and Mrs. John Bladen entertained at a Hallowe'en party Monday evening. The games and other amusements furnished were in keeping with the occasion. Dainty refreshments were served during the evening and the guests departed feeling that they had spent one of the most delightful evenings of their lives.

Another Sad Death.

Just after the Record had come from the press last Friday word was received that Milton, son of Richard A. Thorley, and brother to Richard who had died the day previous, was dead. The news came as a shock as it was not known that he was so near death.

It was learned that the shock of his brother's death, in connection with membranous croup resulted in his demise. This statement was given out by the attending physician, Dr. E. Green.

The quarantine physician, Dr. J. C. Robinson, after investigation stated differently, saying that the two cases were distinctly diphtheria.

Whatever the disease the blow to the parents and family was doubly hard, they little realizing that the second boy would be so soon taken from them.

The family have the sympathy of the entire community in their sad bereavement. Funeral services were held over the remains of the two loved boys at the residence Saturday. They were the idols of the parents' heart, and the loss to them is such that none can realize except those who have passed through a similar ordeal.

Democratic Rally.

Last night the democrats held forth in a rally in the Ward Hall. The evening having turned out to be rather stormy kept a number from attending, who otherwise would, but as it was, a fair sized crowd gave close attention to the speakers.

Chairman Ed. Parry introduced the speakers of the evening, Frank Tolton and Roll Tanner of Beaver City. Mr. Tolton spoke principally on the prohibition question, and also reiterated his loyalty to the Branch Normal. His attitude in this respect is still the same as stated in an extract from a personal letter to a friend which was published in the Record of last week.

Mr. Tanner took up the campaign issues as handled by the republicans, and attempted to show to what ends they will go in order to acquire victory. He also took up the tariff issue, dwelling more strongly upon this subject than anything else.

The speaking was interspersed with two mixed quartets and two piano duets, which were greatly appreciated.

Little Gordon Ashdown Dead.

This morning we are again called upon to chronicle the death of a little boy, the son of Mr. and Mrs. George Ashdown.

Gordon was apparently well last Tuesday morning, but about noon he came into the house complaining of a headache, and seemed to have a bad cold, which later developed into pneumonia. After lingering for two days, he developed alarming symptoms, and all that loving hands could do for him was done, but to no effect he passing away last night shortly after 12 o'clock.

Gordon was a bright little chap and was the joy of his parents, who will miss him sadly. He was five years old, and had so entwined himself in the affections of his parents that the shock of his death is extremely hard. With the death of Gordon, Mr. and Mrs. Ashdown have lost three children, and are now left with but one little girl. The death of her little boy has prostrated Mrs. Ashdown and she with her husband have the sympathy of a host of friends.

Hannibal was nearly halfway across the Alps.

Suddenly he stopped, smote his forehead with his fist and looked with intense chagrin at his tolling army.

"Fool that I am!" he exclaimed. "How much easier we could have done this by using aeroplanes!"

HE'S GOT A MOTORCAR.

MY shoes are worn until my feet are sore from contact with the ground.

I do not like to walk the street. Because the neighbors all around can see I wear my last year's hat. My once black suit is rusty green. I need new clothes. But what of that? I've got to buy some gasoline!

My house looks queer—its bare of paint—And it is not in good repair. I often hear a mournful plaint About "that awful cellar stair." The walls have all begun to crack. And grass is growing up between. I see the ruins, but, alack, I've got to buy some gasoline!

No more I eat my eggs at morn. We have no eggs. They cost good cash! I don't see how a man could earn. A cheap chuck steak or cut is trash.

'Twould give me pleasure to eat horse. At all the grub I've ever seen. I'm almost starved, but what's the use? I've got to buy some gasoline! —Vancouver Province.
